This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

INTRODUCTION.

The tables herein contained are derived mainly from the Shinsen Nempiô (新選年表), Dômô Hitsudoku (童蒙必讀) and Honchô Nendaiki (本朝年代紀). The second of these works is considered an unerring guide in matters of pronunciation, and has been followed exactly, with the exception of not pronouncing 元 *guen* instead of *gen*, which is the usual pronunciation.

Table I, containing the names of the years of the cycle, is needed because Japanese authors often give the cyclical year of a *Nengô*, omitting the numeral year, as for example 康平癸卯年. By referring to this table the numerical value of 癸卯 is found to be 40. In Table II under 康 and opposite to 平 is found 戊戌 1058. The numerical value of 戊戌 is 35. From 40 take 35, remainder 5; 1058+5=1063, which is the date sought for.

In Table II, two numbers are placed opposite to each character which denotes a separate *Nengô*, the first being the year in which it commences, the second that in which it ends. It is a common practice with Japanese writers to say, for example, during 慶長 (*Keichô*), and the table gives the equivalent, namely 1596 to 1615. The characters in brackets are the *Nengô* of the *Hokuchô*, or Northern Court.

Table III contains the pronunciations of the *Nengô* arranged alphabetically, and is intended for the use of those who are not familiar with the radicals.

Table IV is a synopsis of the *nengô*, the *Mikados* and the *Shôguns*. When two pronunciations are found linked together the upper one rests on the authority of the Dômô Hitsudoku, the lower on that of the Hakubutsu-sen (博物筌), published in 1768. As a general rule, Japanese are not acquainted with the correct pronunciation either of *Nengô*, or of the *Mikados'* historical names (*okurina*), and, with the exception of *Kokugakusha*, they will be found to prefer the pronunciation of the *Hakubutsu-sen* to that of the *Dômô Hitsudoku*. The month and day of the commencement of each *Nengô* are also given. The 12th month of a Japanese year usually falls later than the European New Year, and thus the dates at which the *Nengô* begin and end are sometimes wrong by one year. To make the correction with exactness would necessitate calculating the Japanese New Year's day for the last 12 centuries, but the value of the result would scarcely compensate for the labour. The name in brackets under the historical name of a *Mikado* is, in cases where it ends with the word *Mikoto*, the native historical name, in other cases it is the personal name (*imi-na*). The name in brackets under that of each of the Ashikaga and Tokugawa Shôguns is the posthumous name.

571137

Table V contains the names of the *Mikados* of the Hokuchô and their *Nengô*.

Table VI is a list of the historical names of all the *Mikados* in alphabetical order, exhibiting the duration of the reign of each.

Table VII is a list of the residences of the earlier *Mikados*, which will be useful to students of works on the native literature and the earlier historical records.

Table VIII contains the historical aliases of a few *Mikados*.

Table IX contains the historical and posthumous names of all the *Shôguns*, showing the length of time during which the title was held by each.

Table X is a list of the nine Generations (*kudai*) of the Hôjô Family, Regents under the 'Puppet' *Shôguns* of Kamakura.

TABLE. I.
